Why Recycle?

Improper disposal of these products pollutes our environment and could cause injury to collection workers. The products collected will be disposed of in an environmentally safe manner by a licensed hazardous waste disposal firm. Please recycle. (U.S. Environmental Protection Agency)

Pharmaceuticals

Disposal of extra or left over medicine or prescription drugs is an emerging and complex environmental issue. Virginia DEQ has put together guidelines for the proper disposal of unused, unneeded, or expired prescription drugs. Those guidelines can be found [here](#).
